Organic Wine DE-ÖKO-022

Producer: When Jochen Dreissigacker was given the opportunity to take over his parents' estate and to design the winegrowing according to his own ideas, he made a decision: good should become outstanding, tasty should become exciting and pleasing should become strong in character. Since then, ecology, sustainability and the careful use of natural resources have gradually become the face of the vineyards. The reward are exciting, sometimes even edgy wines of outstanding quality.

Soil & Climate: Decayed limestone, unique climate

Vintage: Challenging but favourable vintage: Hot, dry and sunny summer with an early flowering and a fast ripening process. The weather conditions continued into the harvest, allowing many grapes to stay on the vine right up to October. Of course, the drought also led to water stress in some regions. Since temperate heat and cool nights dominated in September and October the grapes remained healthy and were able to develop intensive aromas.

Vinification: Organically produced wine.
Selectively hand-picked grapes, maceration period for 24 h, spontaneous fermentation, maturation in wooden barrels (30%) and stainless steel (70%), extended yeast contact.
