ORIGIN

vineyard. Bärnrieser

soil. gravely loess

climate. The Ried Bärnreiser is one of the warmest locations in the middle of our range of hills, as it allows maximum sun exposure due to its southern orientation and is more influenced by the Pannonian climate than by the cool Danube in the north. Together with the nutrient-rich, sandy loess soils this leads to a very constant ripening of the grapes and a silky tannin structure. That is why for us our Zweigelt cuvée shows best the characteristics of this special location Ried Bärnreiser.
