Organic Wine DE-ÖKO-022

Producer: When Jochen Dreissigacker was given the opportunity to take over his parents' estate and to design the winegrowing according to his own ideas, he made a decision: good should become outstanding, tasty should become exciting and pleasing should become strong in character. Since then, ecology, sustainability and the careful use of natural resources have gradually become the face of the vineyards. The reward are exciting, sometimes even edgy wines of outstanding quality.

Soil & Climate: Limestone, loess, clay, marl. Cool climate.

Vintage: Even though the weather pattern in 2022 was not as optimal as hoped, the wines of Rheinhessen nevertheless developed in a way that they only manage in Germany: with moderate alcohol content, a very expressive and fruity aroma and an acidity that gives the wine its freshness. The September rains came just in time and had a positive effect on quality and quantity in many places. Thanks to the great ripeness, the winegrowers got the style they wanted when they decided on the harvest date. The rain also slowed down the increase in must weights and thus the later increase in the alcohol content of the wines, which meets the needs of consumers.

Vinification: Organically produced wine.
